

**LEGEND**

**SPECIAL FLOOD HAZARD AREAS INUNDATED BY 100-YEAR FLOOD**

**ZONE A** No base flood elevations determined.

**ZONE AE** Base flood elevations determined.

**ZONE AH** Flood depths of 1 to 3 feet (usually sheet flow on sloping terrain); average depths determined; for areas of altered topography, velocities also determined.

**ZONE AO** Flood depths of 1 to 3 feet (usually sheet flow on sloping terrain); average depths determined; for areas of altered topography, velocities also determined.

**ZONE A99** To be protected from 100-year flood by Federal flood protective system under construction; no base flood elevation determined.

**ZONE V** Coastal flood with velocity hazard (wave action); no base flood elevations determined.

**ZONE VE** Coastal flood with velocity hazard (wave action); base flood elevations determined.

**FLOODWAY AREAS IN ZONE AE**

**OTHER FLOOD AREAS**

**ZONE X** Areas of 500-year flood; areas of 100-year flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and areas protected by levees from 100-year flood.

**OTHER AREAS**

**ZONE X** Areas determined to be outside 500-year floodplain.

**ZONE D** Areas in which flood hazards are undetermined.

**UNDEVELOPED COASTAL BARRIERS**

Identified 1983 Coastal barrier areas are normally located within or adjacent to Special Flood Hazard Areas.

Identified 1989 Floodway Boundary Zone D Boundary Boundary Dividing Special Flood Hazard Zones, and Boundary Dividing Areas of Different Coastal Base Flood Elevations Within Special Flood Hazard Areas.

Base Flood Elevation Line Elevation in Feet. See Map Index for Elevation Datum.

Cross Section Label Base Flood Elevation in Feet others within Zone. See Map Index for Elevation Datum.

Revised Elevation Mark River Mile

\* Referenced to the National Geodetic Vertical Datum of 1929

**NOTES**

This map is for use in determining National Flood Insurance Program rates. It does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all potential future areas of Special Flood Hazard Areas. The community map repository should be consulted for more detailed data on flood hazards and for information on floodway delineations, prior to use of this map for property purchase or construction purposes.

Areas of Special Flood Hazard (100-year flood) include Zones A, AE, AH, AO, A99, V, VE, and V-950.

Certain areas not in Special Flood Hazard Areas may be protected by flood control structures.

Boundaries of the floodways were computed at cross sections and interpolated between cross sections. The floodways were based on hydraulic considerations with regard to requirements of the Federal Emergency Management Agency.

Floodway widths in some areas may be too narrow to show by scale. Refer to Floodway Data table where floodway width is shown at 1/20 inch.

Corporate limits shown are current as of the date of this map. The user should contact appropriate community officials to determine if corporate limits have changed subsequent to the issuance of this map.

This map may incorporate approximate boundaries of Coastal Resources System Units and / or of other Federal, State, or local resources under the Coastal Resource Management Act of 1990 (PL 101-591).

For community map revision history prior to community map, see Section 6.0 of the Flood Insurance Study Report.

For updating map panels and base map source see separately printed Map Index.

**MAP REPOSITORY**  
City of Santa Clara  
1800 Marston Avenue, Santa Clara, CA 95050  
(Maps available for reference only, not for distribution)

**INITIAL IDENTIFICATION:**  
APRIL 12, 1974

**FLOOD HAZARD BOUNDARY MAP REVISION:**  
FEBRUARY 1, 1977  
NOVEMBER 15, 1977

**FLOOD INSURANCE RATE MAP EFFECTIVE:**  
JULY 1, 1980

**FLOOD INSURANCE RATE MAP REVISIONS:**  
Map revised January 20, 1999 to update corporate limits, to change base flood elevations, to change special flood hazard areas, to change zone designations, to add roads and road names, and to reflect updated topography information.

To determine if flood insurance is available in the community, contact an insurance agent or call the National Flood Insurance Program at (800) 638-6626.
